

# FABULOUS finds...

## For the Kid in All of Us

We dropped by Marietta's Square recently and discovered Rockets and Roses, an amazing boutique! It has energy, uniqueness and some amazing finds for the 4-foot-and-under set for holidays, birthdays and just-because-I-love-you-days. We picked up a painted tin tea set in pink and green for a new big sister present. It was only \$17! I am an avid local shopper and have never seen anything like this store outside of New York City.

Owner Channie Gilreath has a commitment to bring the most exceptional U.S. and European clothing lines and toys for preemies up to youngsters age 8. No batteries required for her whimsical finds. Gilreath, a mother of two, realizes children are only little for a while and aims to bring in only the best.

## You So Deserve This

This is a stressful world where women may not have yet achieved the balance of caring for their families and themselves at the same time. In light of this, what could be better than to stop in to Skin Care by Gabriela during the long, cold winter to

pamper yourself or the one you love?

Owner and founder Gabriela Voiculescu has a healing touch and no one can top her TLC and expertise. Her knowledge is translated into each treatment and product her spas provide. She was formerly with Saks in New York City and has been featured in national magazines and on TV for years. Try the hot stone massage or the European facial—both are absolutely transforming—not to mention perfect

gifts for Valentine's Day!

Like Oprah says, when the oxygen mask comes down, don't forget to put the mask on yourself before anyone else!

## Inspired Dining

Soho is one of my favorite Manhattan neighborhoods and SOHO in Vinings has that New York feel with the restaurant's recent renovation, including the addition of original artwork, wide planked floors and metal art. Featuring cutting-edge cuisine, SOHO's menu has classics with a twist so red meat lovers can get a fix along with more health conscious patrons. Try the restaurant's famous chicken tortilla soup and the salmon Napoleon layered with portabella, red peppers and spinach and artichoke risotto.

For those still following New Year's resolutions, I suggest you go for the blackened grouper with vegetable du jour and red rice. Veggie lovers will love the inventive, spicy eggplant curry with jasmati rice and chickpea scallion pancakes. Be sure to let J.D. (a fixture since day one) select your wine from more than 600 bottles. "Flight Nights" are on Wednesdays and offer a comfortable environment for girl's night out or a fun mid-week experience. Check it out!
